6. Op what grounds do we process your personal data ?

Every organisation that processes personal data may only do so if there is a legal basis for this. Martin van Schouten Consultancy processes personal data on the basis of the following grounds:

Yes :

- Legal obligation
- Vital interest (in exceptional cases)
- Agreement; this applies to the preliminary phase (e.g. quotation), agreement, and execution of agreement
- Legitimate interest (in exceptional situations)
- Consent

Do we process your personal data on the basis of your consent? Then you can withdraw your consent at any time. From the processing of your withdrawal request, we will no longer process your personal data. This is only different if there is (also) another basis for processing your data (for example a legal tax obligation to retain your data for at least 7 years).

No :

- Special personal data
- Criminal data
- General interest or Public authority

7. How long do we store your personal data ?

We do not store your personal data for longer than is necessary for the purpose/situation for which we process your data.

Do we no longer need your personal data for that purpose?

Then we will delete your personal data.

But sometimes we are (legally) obliged to store your data for longer.

This is the case, for example, if you have purchased something from us.

We have recorded how long we store a certain type of data in our (internal) processing register.

8. With whom can we share your personal data ?

In principle, we do not share personal data with other parties (third parties for you).

We only do this if there is really no other option, for example because it is necessary to be able to perform our legal tasks or to be able to comply with an agreement that you have concluded with us. In this way, we try to comply with the grounds stated in the law.

You can think of the Tax Authorities, Emergency Services, Processing Agreements (if (part of) our/our service/product is not established through us, or if we use a product or service where we cannot avoid sharing personal data).

In such cases, the sharing of this data can take place in the Netherlands, within the EEA (European Economic Area) or sometimes also outside of it (for example, but not conclusive, because of ICT systems).

In any case, we will only share personal data if there is a basis for this. We will also only use a transfer mechanism that has been assessed as well as possible. We will also try to keep the sharing of personal data as minimal as possible. If you believe that this could be reduced even further, we would be happy to hear from you.

9. Wie has access to your personal data within Martin van Schouten Consultancy ?

In addition to Martin van Schouten, employees within Martin van Schouten Consultancy can view personal data if they are authorized to do so.

The employees within Martin van Schouten Consultancy who have access to your personal data have also signed a confidentiality agreement.

Martin van Schouten has not signed this agreement, but in his capacity as (indirect) owner has in any case undertaken the obligation to observe confidentiality – apart from the aforementioned employees.

10. How is your personal data secured ?

Martin van Schouten Consultancy takes both technical and organizational measures to secure the personal data that we process.

We do this, among other things, to ensure that the personal data is not lost.

An example of a technical measure is 2FA on our website as well as SSL.
But passwords are also part of these technical measures.

An example of an organizational measure is that only authorized employees may view your data.

11. What privacy rights do you have ?

If we process your personal data, you have a number of privacy rights:

* Right to access

You can ask which personal data we use from you. This way you can check whether we do this properly, in accordance with the privacy law (AVG-GDPR).

* Right to rectification

Are the personal data we have from you incorrect, or is data missing?
Then you can ask us to change or supplement the data.

* Right to deletion

In some cases you can ask us to delete your personal data. Sometimes this is entirely possible, sometimes only partially (for example if we have a legal obligation).

* Right to limit processing

You can ask us to temporarily stop using your personal data. For example, because you first want to wait for a decision on another request

* Right to data portability

You can ask us to transfer your personal data to another organization.

* Right to object

You can object to the processing of your personal data.

We can then contact you about this.

* Right to a human review of decisions

If you receive an automated decision from us in an exceptional case, you can ask us to make a new decision that has been assessed by a person.

* Right to withdraw consent

Did you previously give us permission to use your personal data, but have you changed your mind?

You can then withdraw your consent. We will then no longer process your personal data, unless another basis for processing continues to exist. Please take our processing time into account. After that, we will no longer process your personal data, unless you give us permission again. This will then be considered new permission.
